Prairie Access Virtual Program

The College Community School District is pleased to announce a new option for students and their families wishing to participate in a virtual school experience. Building on what we have learned from the Temporary Virtual Learning Option this year, we will be launching **Prairie Access Virtual Program.** The goal of this new program is to offer a virtual platform with opportunities to stay connected to the Prairie community through optional onsite experiences and some synchronous support from Prairie staff.

The purpose of this communication is to make our families aware of this planning process, give a general overview of the program and create opportunities for those interested to ask questions prior to the registration window.

Please note: our decision to launch this program will be based on interest. If we are unable to secure enough interest, we will not move forward with launching this program. A final determination of program status will be made by the week of May 17.

Space for this program will be limited to 50 students k-6 and 50 students 7-12. Virtual schooling will not be offered for Preschool or Alternative Kindergarten (AK)

Timeline / Key Dates
