Parents and students are invited to visit the classrooms, drop off school supplies, find lockers, meet staff and tour the building. The school nurse will be here for any parents who need to drop off medications. The school store will be open to buy locks, Prairie Wear, etc.

Counselors will be available to answer any questions about programs that are available to students and families. You can also stop by the counseling office if you have questions about the parent portal or if you are a new family to the district.

We hope that you can all join us to help kick-off the start of a fantastic year.
